Dimes March to be Started this Saturday

Block Long Strip to Give Visual Impetus to Drive

"Join the March of Dimes Saturday and keep the 'footprints' marching for one complete block with your contributions of dimes," was the appeal today by Mrs. Eugene E. Theriault who is in charge of this feature of the Village's March of Dimes drive.

A block-long strip of paper, on which marching feet are drawn will be placed in front of the Bank of America from 10 a. m. to 1 p. m., and passersby will be asked to contribute dimes or other donations. Boy Scouts and Girl Scouts will guard the contributions.

"**BESIDES ILLUSTRATING** the March of Dimes," Mrs. Theriault said, "the marching feet will depict the many children who have been aided by past donations and those who will be aided by your contributions this year."

Subscription cards were sent by mail to all Villagers Saturday, and donation cans were placed in business establishments by firemen. It was reported by Mrs. Sidney O. Noles Jr., general chairman.

OTHER EVENTS planned by the March of Dimes are: A benefit fashion show January 15 at Thunderbird Country club, and a dinner-dance January 20 at the Racquet club.

Auto Crash Follows Accident

John Ruis of North Palm Springs was issued three citations by Sgt. Howard Poe following an accident between 4 and 4:30 a. m., Wednesday, in which his 1940 model car collided with a parked car at 1005 North Indian avenue, and forced it into another parked vehicle.

He was cited for driving without due caution, driving without a driver's license, and failure to leave name at the scene of an accident.

Ruis was traveling north on Indian avenue, and his car collided with the left rear of a 1947 model car owned by John M. Pitelado, forcing it into the side of the parked vehicle owned by Frank Chester of 1005 North Indian avenue.

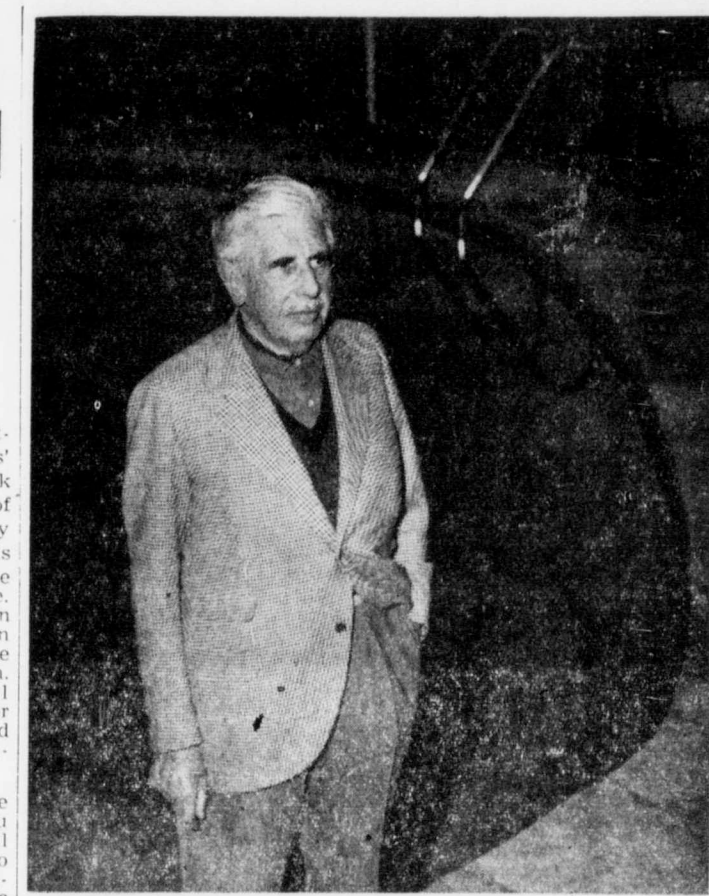

Damage to all vehicles was estimated at \$400.

CREA Citation for Local Board

Palm Springs Real Estate board Tuesday received an emblem certificate from the California Real Estate association as a membership award for its growth during the past year.

The certificate will be framed and on display at the office of the president, George Gannon.

The certificate cited the local board for becoming a member of the Twenty Per Cent Club having increased its membership by more than that figure.

A SECOND SOUTHERN CALIFORNIA—That's the description of Morocco as given by John Gallois, who has joined other California financiers in proposing a \$60,000,000 irrigation project there. Gallois is pictured by the pool of his hillside home at 1985 Camino del Monte.

Winter Resident Quietly Playing Leading Role in Vast Development of Morocco

By Don Klotzbuecher
John Gallois—Man of Mystery!

A pioneer in radio development in the early 1900's, then a familiar figure in the stock exchanges throughout the country for 10 years, Gallois has come out of the obscurity he has enjoyed for more than 20 years to join other California financiers in a 60 million dollar project of irrigation and development of the vast Haouz plain in Morocco.

Few Villagers know of the past or present accomplishments of Gallois, as this reporter discovered as he sought background material before going to the financier's home at 1985 Camino del Monte to interview him about the extensive North African development.

AND WHO'S WHO and other reference books did not furnish information about the man known to be the confidante of foreign ministers and who is as much at home at the Quai D'Orsay as he is in Palm Springs or at the domiciles he maintains in this country and abroad.

Gallois and his companies, Federal Telegraph Company of Delaware and Federal Telegraph Company of California, were among the first to recognize the possibilities of radio and its application for commercial use.

In 1911 they acquired the rights to Valdemar Poulsen's arc transmitter patents which at that time was the best known system in the world and which still is recognized as one of the top discoveries in the development of radio transmission.

THEY FINANCED the Federal Telegraph Company which at that time was the first strictly radio communication system in the United States.

They established the first commercial radio on the Pacific Coast.

During World War I his companies constructed many of the great radio stations in Europe for the United States and French governments.

A CONTRACT was also secured with the Chinese government to build a chain of radio

PLANS FOR THE BREAKFAST were made by the board of directors at a luncheon meeting Friday.

The group also accepted a proposal of taking a news reel depicting the activities of the six participating agencies of the Chest, which will be shown in the local theaters during February through the cooperation of Earle Strebe.

The films will be taken by Lloyd Mason Smith of the Desert Museum, one of the participating agencies.

GRAHAM DEXTER has been named in charge of the campaign solicitors, and Mayor Charles Farrell is in charge of the Advance Gifts committee.

Solicitation of advance gifts has been under way for about a month, and on Saturday collection was started with the aid of Angelique's Parfum Carriage. Kick-off of the collections was held Saturday noon at Desert Farmers Market, where a large crowd witnessed a performance by Mayor Farrell and other stars of radio and television.

Explosion Cathedral City Man Hurt in Blast

Ramon Camarena, 25, Cathedral City, was treated for second degree burns of the face, arms, hands and fingers following an explosion of natural gas at 10 p. m., Tuesday, while he was attempting to prepare food on a gas stove.

It was reported that Camarena had turned on the gas, but didn't ignite it immediately.

Emergency treatment was given Camarena at Desert Hospital, and he was then released to return to his home.

The PUBLISHER'S Corner

FROM BREMERSTON TO DEATH VALLEY the hue and cry is going up against the practice of making a public dump of our scenic highways by throwing bottles, cans and trash from automobiles. It is simply thoughtlessness on the part of motorists who would not think of throwing trash on the front lawns of their neighbors.

From a copy of a Bremerton newspaper brought to us by R. B. Campbell we note an editorial in which the Washington daily suggests a good New Year's resolution for their readers would be to stop throwing trash from their automobiles. The campaign to stop littering on our highways has reached all the way into Death Valley where T. R. Goodwin, superintendent of that national monument, has been cleaning up highways in that scenic region and appealing to motorists to be more considerate.

Desert dweller and lover Harry Oliver has taken up the cause in his Desert Rat Scrap Book. He suggests that brewers stop emphasizing "throw-away" bottles—the kind on which no deposit is required. He thinks it would help also if dealers along the highways would handle beer only in returnable bottles.

But that doesn't take care of the cans and assortment of trash which motorists carelessly cast out of their car windows. Such stuff can be kept in cars until a suitable place is found to dispose of it if motorists can be broken of the habit.

Our highways near Palm Springs have been made unsightly by this unhappy practice of throwing things from cars. So let's keep this in mind the next time we are out driving. Let's bring our bottles, cans and papers back home and put them in the trash cans where they belong.

Jones Again Heads County Supervisors

Varner Declines Nomination, Too Busy, he Says

Supervisor William Jones will continue as chairman of the county board of supervisors as result of action taken Monday when the board reorganized at the county court house.

Jones was the only nominee for the position before the board after Homer Varner, representative of the fourth district which includes Palm Springs, declined the nomination.

VARNER, WHO WAS seriously ill last year and lost a leg by amputation, said that he had sufficient to do to cover his large district which covers San Geronimo pass and extends to the Colorado river.

"I prefer not to assume additional duties," he said. "I appreciate the honor, however."

With Varner declining, Jones was the only nominee and was elected.

ONE NEW SUPERVISOR took office, Warren Roman, 60, a rancher. He succeeds B. C. Barnes whom he defeated in last year's primary election.

Warren, taking note of comments that he would line up with Varner and Jones in a majority bloc, said that he intends to learn the wishes of the people and vote accordingly rather than align himself with a majority bloc.

AFTER ELECTING a chairman, the board arranged its office schedule. The law requires that at least one supervisor be present each day in the supervisors' office.

The law specifies that the office schedule be drawn by lottery. But supervisors Monday fixed their own schedule. Varner, who lives 75 miles from the court house, asked to be assigned to Tuesdays. In that way, he explained, he can save one round trip a week—150 miles.

"I have to be here Mondays, anyway," he said, "and I might as well stay overnight and be here Tuesdays, too, thus saving a lot of mileage."

Suspect Sought on Boy's Story

Police are searching for a man suspected of child molesting who offered a 10-year-old boy \$2 to go out on the desert with him and "pose for some pictures."

The youth, upon hearing the offer, jumped on his bicycle and rode to the nearby home of a friend and told his friend's mother the story. Authorities were then notified.

The man, driving through the Village, stopped by the boy who was riding his bicycle, and originally asked him for directions to Desert Hot Springs. After

USE OF WORD "SEASON" NOT GOOD FOR ALL-YEAR PLAN SAYS WRITER

Art Ryon, noted editorial page columnist with the Los Angeles Times, currently vacationing at Turquoise Villa, offered what he valued as the "key for success to an all-year resort."

Hotel owners and business people of Palm Springs are unaware of the harm they are doing each time they mention the word "season," said Ryon.

"HOW DO YOU expect to evolve into a year-around re-

sort by directly establishing 'off season' periods.

"Forget that the word 'season' even exists!"

"Stop to analyze what you're doing when you use the word in brochure copy, newspaper advertising, publicity releases, etc."

"Then stop for a moment to give thought to the huge paper signs that run the length of the many stores exclaiming 'Closed for the season.' The

sign alone makes the visitor feel he's vacationing in a ghost town... a place of desolation!"

"THE SITUATION that exists in the Summer along Palm Canyon drive causes a psychological reaction within the visitor that is difficult to destroy."

"Oh no!" He'll say. "Don't go there in the Summer. The place is dead!"

"Isn't it logical," continued Ryon, "how newspaper stories that are headed 'Palm Springs season opens' are detrimental to every one of the business-men?"

Mr. Ryon here with his wife, Pat Laughrey, fashion editor of the Valley Times in San Fernando Valley, will return to Los Angeles tonight.

TWO VILLAGERS HELD IN AUTO THEFT RING STUDY

Howard Stanton Lewis, 27, and Sonia Scheiner, 27, operators of a bowling alley here since October, today are in Los Angeles city jail charged with suspicion of grand auto theft and under investigation as the possible leaders of an automobile theft ring operating in that city.

Lewis and Miss Scheiner, who gave their home address as 544 Calle Abnoria, were arrested by Los Angeles authorities working in conjunction with local police in the early morning hours Tuesday.

LEWIS WAS ARRESTED at 1:20 a. m. by Sgt. Dale Thompson of the Palm Springs department. Los Angeles Sheriff's Sgt. E. V. Mansell and Sgt. Jack Pilkington of the Los Angeles police department.

Miss Scheiner was arrested at 12:50 a. m. by Sgt. Jim Maynard of the local force, and Sgt. William Donovan of the Los Angeles department.

Los Angeles authorities took them to that city later in the morning.

THEY ARE SUSPECTED of being members of a ring which allegedly stole a half-dozen automobiles in the Los Angeles area, and after taking them to a garage where the engine numbers were changed, the cars repainted and fictitious pink slips provided, reselling the vehicles.

It is not believed that any activities of the group extended into this area, Police Chief August G. Kettmann said.

Suspect in Auto Theft and Sale Arrested in East

Officer Robert White and Sgt. Dale Thompson left Tuesday by car for Croton on Hudson, New York, to extradite Herbert Cosner, 52, to Palm Springs to stand trial on a charge of grand theft.

Cosner is charged with the theft of an automobile and selling it using fraudulent documents.

OFFICER WHITE, who investigated the case, reported that Cosner took the automobile owned by Mrs. Charles Bonoff and sold it to Rudolph J. Deckert of 220 1/2 North Calle Santa Rosa.

Cosner saw Mrs. Bonoff and her husband off at the Palm Springs airport on June 5 when they were leaving for New York, and then was to return the automobile to the garage at the Bonoff residence, Officer White said.

BONOFF DIED shortly after that, and Mrs. Bonoff didn't discover the theft until she returned here November 6.

Mrs. Cosner was an employee of Mrs. Bonoff.

Sale of the automobile was on June 21, and the Cosners left Palm Springs three days later. Cosner was arrested in Croton on Hudson on December 19.

Two Freed After Study of Theft

Two men arrested Saturday morning on a charge of stealing candy were released Monday as no complaint was signed against them, police reported.

Held by police until investigation was completed were Jack Stanley Stern, 25, of Los Angeles, and Bernard Daniel Shapiro, 24, of Beverly Hills.

Well the magazines are plumb full of post mortems on what put Ike over in the election. The dopsters got it all figured out. Its this and that and the other cause—Korea, corruption, communism, minks, Harry, and what have you. But they are all wrong on why the good old American public can be relied upon to come right side up. None of the analyses hit the flat side of the nail.

Out here in Hidden Springs Ranch, where a man can sit in the sun until late in the afternoon and do a bit of calm meditating, we have it all figured out.

The real low down on this last political ruckus is that a majority of Americans feared that if Joe did elect to accept those invitations and come over here, got into a poker game with Harry on that Presidential yacht Joe would go home with the boat and leave us Harry. Now leaving us Harry would be bad enuf, they figured, but to have Joe sail that luxury boat right by the British Isles on his way home and waive gaily at Winston Churchill was one too much. So they just ditched Harry.

In these days of high tension living a man has just got to get away from it all and have leisure and detachment to think straight and it can't be done in the mad whirl of urban living or the merry-go-round of resort life weekends. A man's got to get out on the wide open spaces or the country to give birth to ideas.

Now take for instance George Montgomery who lives in quite a degree of luxury here at Hidden Springs Ranch in Thousand Palms. George is a business man up town and lives in Westwood. All the week he works at high pressure to keep the wolf from having that proverbial litter of pups right on the front porch. There's no time left for constructive thought, nor to get new ideas which might be worth a lot of money to him. No time to take inventory and see where he's going—"too close to the trees to see the forest," he says. So George got himself a nice comfortable three-bedroom, three-bath house, right out here in the wide open spaces where he can close his eyes and free of all the noise and bustle. Peace and quiet reigns. Every Friday afternoon he leaves the city for the weekend and drives back Monday morning all refreshed from warm sunshine and relaxed. He says its no trouble getting up early and driving into town before the traffic spoils life. Over the weekend he chases little streams of water around thorough ditches among those trees he has planted and fondly nourishes for enhancement of his values. He claims its a great deal more beneficial than hitting a little old ball over artificial golf courses and yielding to temptation to play another 9 holes when already fatigued, over extending and going down to the office Monday mornings. He gets just the right amount of exercise becoming a city dude who sits in an office all week, quits when tired and when its hot he takes off down to the Hidden Springs Ranch swimming pool and chills. George was even casting envious glances at some horse-back riders the other morning as they came out of Dutch Myers new riding stable over here and started off across the hundred thousand acres of unfenced horseman's paradise around the Hidden Springs Ranch. George says that when he gets bored, or his wife restless, he can always run over in 15 minutes to the nite life of Palm Springs, get caught up with nite clubbing and then come home to peace, quiet and rest, a sound sleep. Meantime those trees keep growing and some day when retired will be able to sit under the shade of them in a haven of peace.

Along with the health and exercise business, George is getting to be also quite a philosopher. He talked at length of the value of solitude for constructive thought, for the "birth of ideas," claims one can't get that in the herding of cities but only when man is with himself. A lot of George's philosophy was gleaned over the head of "a little old desert rat" but I pass a bit of it along. "In the world," says George, "a man lives in his own age; in solitude in all ages. Out of solitude are born the souls of Genius whose impress is deep upon the world. There is forged the iron shod which shatter dogma and awaken nations. Not that man forsaking man's mission should prefer the monastery to the fight or seek seclusion fearful of life's conflict but that man should have solitude to live better out of it; to dream dreams, to create ideas; should court seclusion in order to better employ his God given talent for his own advancement and the benefit of mankind... Solitude is the audience chamber of God. The philosophy of Spinoza found expression in the quiet of isolation; seclusion is the nurse of wisdom. All the great battles that have ever been fought in civil or military life, all the mighty ideas that have crystallized in the epochs owe their inception to the same fostering spirit. It is the spring welling from the earth in the solitude of the mountain fastness which broadens into the rushing torrent and turns the great wheels of industry. It is the thought, meditation which furnishes the impulse of the world progress. Introspection is the parent of creation of action. He who finds no solace in thought never harbors a thought worthy of reward."

The great men of history are those who inhabited the sphere of thought with which other men rise with labor and difficulty. Men of action are men of ideas. Loneliness is not measured by the miles of space that intervene between a man and his fellows.

some time . . . He excused me, however, because he said that rampaging auto which butted into the bridge abutment ripped out one of the danger signs . . . He agreed that perhaps there should be three or four red reflector signs leading into the bridge on either side . . . Such as there are at the F.S.P. underpass on Highway 111.

WHILE CORRECTING yourself

on the red reflector signs, he said, "you might add two other items which are the cause of much grief to our maintenance department . . . That is the practice of loading garbage and other waste in a bag and while riding nonchalantly along Highway 111, let it drop out of the car window . . . There are many people, especially in the outlying districts where there is no waste disposal collection, who

pack their garbage and refuse into paper bags . . . While riding along Highway 111 into town they drop it on the road . . . Beer cans, bottles, and so on . . . Hard on tires and against the law strictly."

AND THEN there are the marksmen, he added . . . The people who want to shoot at targets . . . And they use road signs for the purpose . . . Lineau said he has to keep one man busy one day a week with paint brush and paint, effacing the bullet marks from road signs . . . "Why don't they shoot at the bottles and cans people discard

along the roadside if they must shoot," he asked . . . "Maybe because it is too small a target . . . And shooting from a moving car is also against the law," he said.

ENOUGH of the traffic problem for a while . . . Understand Christine is scheduled to visit the desert this month . . . Coming here from Denmark . . . Will stay at La Quinta at the Desert club is the rumor . . . Can't remember her last name but her first name wasn't always Christine . . . Not when she was in the army . . . Dr. Clarence Macartney, for more than 25 years pastor of Pitts-

burgh's biggest church, was a visitor at Palm Desert this week . . . With his brother, Dr. John R. Macartney, pastor of Palm Desert Community church and for 11 years, pastor of Community church here . . . They are two of four brothers whose combined service in the pulpit now sums up to 253 years . . . Their father was a minister, too.

THE NEW PHONE book is out and there have been some changes . . . This year the A-1 Plumbing company is the first listing and the AAA Auto service second . . . Last year it was the other way around . . . Bill Nash,

manager of the local exchange, probably alternates them to keep peace . . . This year Esther Zwerdling closes the book . . . Last year it was Zuberbier, R. L. . . . That's now next to last . . . For years, up to 1951, George Zugarin held the last spot . . . Not even listed this year. Probably declared.

tire resort area. At the same time I want to congratulate you on the improvements you have made in The Desert Sun in the past two years which has brought your newspaper such a high percentage of readership in this field."

Ben Meyer, chairman of the board of directors of the Union Trust and Savings Bank, Los Angeles, one of the largest independent banks in that city: "The Desert Sun's El Mirador edition is the finest promotion for any new business ever seen in Palm Springs or any metropolitan area. It not only served its purpose of publicizing the new, luxurious El Mirador, but was a tremendous boost for the Village itself."

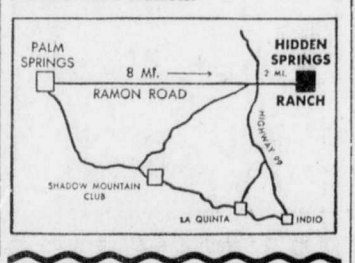

Sol Lesser, widely known motion picture producer, Palm Springs home owner: "The new El Mirador Hotel is simply wonderful, as was the Desert Sun's edition in honor of the grand opening of this new oasis in the desert wonderland. Without a doubt El Mirador enhances the beauty of Palm Springs, and the special edition will serve as the magnetizing agent which will aid in drawing more and more wonderful people to share with us the enjoyments of this resort area."

Russell Rink, city manager, Palm Springs: "I am a great believer in anything which promotes our resort industry, and I believe that your special El Mirador edition was one of the best promotions ever produced in Palm Springs. The edition gave a definite cosmopolitan air to your already excellent paper."

William Dunkerley, manager, Palm Springs Chamber of Commerce: "Anything as outstanding as the new El Mirador Hotel and the attention given it by your special edition is excellent promotion for Palm Springs. Your tribute to El Mirador will no doubt attract numerous people from throughout the nation to this new, luxury hotel and to the Village."

AROUND TOWN

With Hildy Crawford

The eyes of the nation will be on Washington, D.C. on January 20... when Dwight Eisenhower is inaugurated as President... and a Californian, Richard Nixon, becomes Vice President... While most of us will have to be content to view it on television... several Villagers will be in the Capitol for the inaugural... and some of them will have a part in programmed events.

Melba and Frank Bennett... whose gift for arranging entertainment... is so well known in the Village... will work with George Murphy to stage the Gala Festival... The Benner's leave tomorrow by train (take note, Espee)... En route they will spend a few hours in New Orleans... The night they reach the capital they will be dinner guests of Dr. and Mrs. Montgomery Blair... They are the ones who gave Blair House to the government... and they will be remembered by many Villagers who knew them when Dr. Blair was stationed at Torrey General Hospital during the war... The Benner's plan to go on to Manhattan and see all the shows... before coming home... They will be back in the Village around mid-February...

Allan Jones to Sing

Allan Jones, who has a home here, will sing at the Festival... He and Mrs. Jones (Irene Hervey) will leave here about January 15... and fly East... The Marge and Gower Champions (tops in dancing teams)... who have been staying at the Random House... will also go to Washington... to take part in the entertainment...

Marian White, president of the Palm Springs Republican Women's Council... is already back East and expects to attend all the ceremonies, including the Inaugural Ball... She writes that even with the addition of a second ballroom... the demand far exceeds the supply of tickets... I think she is such a good Republican that she would have gotten in anyway... but it turns out that the head of the ball committee is an old friend of hers... Mrs. White has accepted invitations to speak at a GOP meeting in Baltimore... and at the Republican Club in New York...

The George Barrett is going to Washington for the inaugural too... On the way they will attend the inaugural in Illinois... where Mr. Barrett used to be attorney-general...

The glamorous new dining room of Hotel The Oasis... will be the setting for a cocktail and dinner party Friday evening... when Dewey Metzford and Manager George Thompson play hosts to Western Hotels officials... and a few specially-invited friends... There will be around 50 guests... and for most of them... it will be their first opportunity to see the Oasis dining room which sets a new pattern for beauty and elegance in the modern manner...

Orchid Tree

One of the season's most elaborate cocktails is to date... was given in the Racquet Club's Mural Room (note the name) Friday evening... when Mrs. George Machris received around a 100 guests... The party honored her houseguests, Dr. and Mrs. Sam Herzikoff... who have leased their own Palm Springs home... An "orchid tree" with the blooms arranged on a branch of manzanita centered the hors d'oeuvres table... and garlands of smilax and fragrant gardenias... and tall lighted tapers... enhanced the setting for the "after five" festivities... The smartly-gowned hostess held a beaded purse... created to look like an old-fashioned bouquet...

Victor Ford Collins... The Playhouse cast will be feted Saturday evening... at a pre-opening cocktail party... at the Camino Rancho home of Mrs. John Lapp... an enthusiastic Playhouse supporter... Among the guests will be... Playhouse patrons who purchased season tickets from the hostess...

Silver Wedding

Silver wedding anniversaries... have a special significance when they occur in Hollywood... and the one which the Williams Gargans will celebrate this month marks one of Cinema City's outstanding marriages... The milestones of the marriage... have been marked by repetition of their nuptial vows... This week silver embossed invitations went out to their friends... to attend the Gargans' 25th anniversary celebration... which will be held at Our Lady of Solitude church in Palm Springs... on January 19, at 9 a. m... A wedding breakfast will follow at the Desert Inn... Happy anniversary to two nice people...

Around town... Sophisticated Eve... having a marvelous evening in El Mirador's Supper Club... The Edgar Bergens and daughter Candy... filling their plates at the smorgasbord table at Town and Country... They have a place at Palm Desert and drove clear in to the Village... for some of their favorite food... At the Desert Farmers Market... where we were having some of those marvelous potato pancakes... people kept going past our table... There was Theodora Fleming... the McManuses... Mayor Charles Farrell... Farrell was there to make a broadcast on behalf of the Community Chest... The only reason he didn't was because they couldn't get the machine hooked up... and don't ask me what machine... because I wouldn't know... People in the Palm Springs Drug store... getting a kick out of dropping coins for the March of Dimes... into the milk bottle bearing the name of their home state... and, of course... there is a Texas size dollar bill in the Texas bottle... if you are looking for Community Chest headquarters... you'll find it in the Center... The Stanley Rosins (he is just completing his year as president of the Chamber of Commerce)... will host a cocktail party for board members... preliminary to the Chamber banquet next Tuesday night...

Weekend guests from Spokane... Dr. and Mrs. Charles Olson... Dr. and Mrs. Stanley Denison... were the inspiration for an informal Sunday night cocktail party... at the Mission road home of Mrs. Norma Oliver and her daughter Anne... Dr. Olson is Mrs. Oliver's brother and he had visited the Village frequently in years preceding the war but this was his first visit in 10 years... Friends invited in to renew acquaintance were... the Bill Masons, Harold Hicks, Culver Nichols and John Clarks...

Hollanders Visit in Palm Springs

From Palm Springs they will go to Mexico City, then to Guatemala, Miami and New York City, before sailing for home.

Marge and Gower Champion, of the sensational dance team, have also been staying at Random House.

INTRODUCING A NEW PROFESSION OF HEALING

People speak enviously of others who made remarkable recoveries from so-called "incurable" diseases. Indeed, a high percentage of patients suffer from concealed psychic conflicts devouring their vitality. A patient comes to the psychologist's office "My neuritis is driving me insane. I've tried everything. There seems to be no help for me."

Due to some deep inner conflict he had been afflicted with a protracted nervous depression. He finally recovered from it, but paid for his mental rehabilitation by a new physical disease. The psychologist shows him how to solve his psychic conflict, the patient makes a positive spiritual adjustment and becomes well. Conquering disease at the psychic source by non-physical means inherent in patient and doctor, calls for a new kind of physician, who is a "psychician."

Future of County Chamber Group to be Discussed

Representatives of the Riverside County association of Chambers of Commerce will meet with the County Board of Trade tonight, Thursday, at Beaumont's Fireside Inn to discuss the future of the county association.

Representing the Associated Chambers will be Roy King of Indio, William W. Watson of Hemet, Oscar Crowell of Arlington and Everett Grubb of Elsinore.

Executive committee of the group, meeting at Banning Tuesday evening, discounted rumors of disbanding, saying that they want to continue to work with the Board of Trade to promote Riverside county.

It had been mentioned that the Associated Chambers might disband now that one of its chief objectives, revival of the Riverside County Chamber of Commerce, now known as the County Board of Trade, had been accomplished.

Arrangements for the January 20 meeting of the Associated Chambers were delayed until results of Thursday's meeting are known.

Bank of America, treasurer for the local committee, No house to house or personal solicitation is made, it was pointed out, and the entire campaign is waged via mail.

Salvation Army activities include two Booth Memorial hospitals for unmarried mothers and their babies. Summer camp activities, missing friends, services on behalf of prisoners, parolees and their families, disaster relief, emergency services on behalf of families victimized by fire or other causes, the Lytton boys and girls home, and other phases of Salvation Army work.

Library Notes

THE MAN ON A DONKEY by H. F. M. Prescott.

This extraordinary and beautiful book is the story of sixteenth century England, of Henry VIII and his passion for Anne Boleyn which started a movement that altered the entire history of England. It is the noble and tragic story of the Pilgrimage of Grace and of Robert Aske, the impassioned man of God, who led it. A vivid procession of historical characters take on new life in his powerful novel of a time which seems very much like our own. Critics have said of this book: "It is no peer in the historical novels of our age... the wonder of faith fills this book, faith that surges even amidst the ruination of war and persecution." The author, born in Litchford, Cheshire, England, took her degrees at Oxford, and is well-known for her writing. She has undoubtedly written in "The Man on a Donkey" the outstanding historical novel of our time, and, perhaps even more astonishing in the realm of historical novels, a vital and living human document.

MUSIC AND IMAGINATION by Aaron Copland.

One of the most famous American composers writes here on the nature of modern music, how to listen to it and understand it. He discusses the part played by the freely imaginative mind in composing, performing, and listening to music. There is a major chapter on orchestral instruments, and a suggestion about the music of the future. Mr. Copland analyzes American music, and speaks of the composer who seeks to find, in an industrial society like ours, justification for the life of art.

Sheriff Asks Use of Regular Deputies

Sheriff Joe Rice Tuesday asked supervisors to be allowed to hire special deputies in his regular force to patrol dances.

County laws require that special deputies who are not regular members of the force be employed at the dances.

Sheriff Rice said that this provision made it difficult to obtain qualified and trained men.

Safety Committee Urged for County

Supervisors Tuesday discussed the advisability of establishing a county safety committee to study ways and means of combating the rising tide of traffic accidents among the 1100 employees of the county.

Supervisor Homer Varner said that the rising tide of accidents is adding \$200,000 a year to the county's insurance costs.

Seal Sale Still Short of Quota

Mrs. Roger Williams, local Christmas Seal Sale chairman, said that the county-wide sale totaled \$23,434.03 at the end of the fifth week. This is \$910.80 more than was received at the corresponding time last year. "It is still \$5500 short of our county goal," Mrs. Williams said. Mrs. Williams especially wished to thank the Girl Scouts, Boy Scouts, Gray Ladies of the Red Cross, Mothers' clubs from the schools and the PEO for assistance given in the campaign.

Prowlers

Two Reported by Village Residents

Two prowlers were reported to police Monday evening by Villagers. Complaints came from A. E. Frivett, Sun Tan Lodge, 2231 North Palm Canyon drive, and Mrs. Ray Lewis, 144 North Calle Enella.

Mrs. Lewis, who saw the suspect jump over the fence into the adjoining property, described him as of stocky build, having bushy hair and wearing a red shirt.

Cabazon Water Petition Dropped by Board

Following several weeks of debate, supervisors Monday killed a petition prepared by citizens of Cabazon asking formation of a water district. Action was taken at the request of signers of the petition themselves.

They said there was "too much confusion" about the issue and that a new amended petition may be sent in later in the year.

Rush for '53 License Tabs Starts Early

More than 500 Villagers have taken advantage of the automobile license tab service offered by Bank of America Palm Springs branch, Manager Fred G. Ingram announced today.

Sale of the 1953 tabs during regular banking hours started January 2, and will continue through February 4 at the branch located at 104 North Palm Canyon drive.

SPECIAL WINDOWS have been set up to accommodate the buyers, and in addition to automobile and commercial tabs, the Palm Springs branch will issue trailer tabs. All other types must be obtained at a branch of the department of motor vehicles.

No charge is being made by the bank for this service. Persons taking advantage of this convenient way of getting license tabs must bring along their 1953 potential registration card, Ingram said.

THE FORM is in duplicate. One copy is left with the bank for forwarding to the department of motor vehicles, and the other is validated and becomes the registration card, or "white slip" which is carried in the vehicle.

Persons who do not have a 1953 potential registration card must make payment of license fees at a branch of the department of motor vehicles, Ingram said.

Radio and television have grown enormously over the years, but the newspaper remains the backbone of most advertising campaigns.

This isn't just our opinion, but the view expressed at the Financial Public Relations Association at their Coronado convention recently. The association represents some 1,600 progressive banks throughout the United States which spend millions of dollars annually on advertising.

What makes the expression of this view more convincing is the fact that it is borne out in practice. California's largest bank and many other financial institutions have centered their advertising campaigns around the newspapers for many years. They continue to do so.

First Annual Yo Yo Contest to Start in Village Jan. 19

First annual Yo-Yo contest open to youngsters between 6 and 16 will be held in Palm Springs starting January 19, sponsored jointly by the City Recreation Department and the Palm Springs Youth Center.

Thirty-six winners will be selected from contests held in the city schools for the finals on February 14, and two winners will win all-expenses paid trips to the district finals at Los Angeles, and if winners there to the state finals at Berkeley.

THE STATE CONTEST, with 104 cities participating, is sponsored by the Duncan Corporation, which furnishes all prizes on the local, regional and state level.

President of the corporation is D. F. Duncan, who resides at 457 Hermosa place.

Prizes offered are: Local contest—Emblems, sweaters and trophies; Regional—Bicycles, all expense paid camping trips, and trophies; State—College scholar-

ships, all expense paid camping trips, bicycles and trophies. In addition, giant Yo-Yos will be awarded to winners.

MOVIES will be shown at all elementary schools, Nellie Coffman Junior High school and at the Youth Center of last year's state final. It was reported by Recreation Director Howard Haddock and Youth Center Director Ted McKinney.

Pamphlets telling the 10 different tricks by which the contest will be judged will be distributed at the schools. Three winners will be selected each week for three weeks at each school and then three winners will be selected from each school for the city finals.

ALL PRELIMINARY contests will be held at the Youth Center. Winners in any event will receive a prize, McKinney and Haddock said.

Further information may be obtained by contacting Haddock at 2202 or McKinney at 5125.

I RISE TO REMARK

By CONGRESSMAN JOHN PHILLIPS

Washington is always an interesting city, but never more so than now, as a change in administration approaches. Needless to say, many activities are slowed-up, while agencies and individuals sweat out the two periods; first from the election to January 3, when the new Congress convenes, and then from January 3 to January 20, when the new President and Vice President take office. There is a third period, not often thought of, but also important.

This is the period from January 20 to the time when bills begin to roll, and the policies and programs of the new administration are apparent to the nation. You may recall, back in the early part of 1947, when the people elected Republican majorities in both the House and the Senate, we were hardly organized before the opposition began to call us the "Do-Nothing Congress." It was clever propaganda, and effective, by the sole power of repetition.

NO CONGRESS, under any administration, gets rolling early

in the year of the new organization. New committees are organized; bills must all be reintroduced; the new members must be assigned to their committees and until then the machinery does not operate.

What the columnists refer to as the expected "March on Washington," has not materialized, or at least not to the extent expected. When a party is out of office for 20 years, and then wins an election, the would-be jobholders stand in lines reaching from here to there. It was so in 1933, after 12 years of a Republican administration, and it was expected now, after 20 years of a Democratic administration.

A new liaison representative of the Eisenhower administration called me the other day and asked me to give him the names of men or women in my district who wanted Federal jobs at the higher levels and were competent to fill them. I told him I represented a district of unusually intelligent people; entirely too intelligent to want to struggle with the weather and the crowded conditions of Washington, and the increased costs of living here, all for a job based on political uncertainty.

I THINK there will be relatively few jobs anyway. We may suffer somewhat from our own publicity about bureaucracy. We have been talking for years about high salaried Federal jobs, without making it clear that the jobs over \$10,000 are the exception, rather than the rule, of government service. Our complaints have been directed at the intervening strata of Federal employment, not primarily on salary grounds, but rather because of the deliberate seizure and

Soroptimists to Conduct Contest for Fair Queen

Soroptimist club, meeting Tuesday noon at the Racquet club, accepted the invitation of the Riverside County Fair and National Date Festival, extended to them by Phil Stone, to select the Palm Springs entry in the annual Queen contest.

The club's choice, who must be a Junior or Senior in the Palm Springs high school with a scholastic rating of "B" or better, will be announced within the next week, the club decided. Three members of the club, Dorothy Groh, Blanche Martin and Sophia August, gave craft talks, telling about their business careers.

Connie Dekker presided at the meeting in the absence of the president, Esther Weingarten. The program for next Tuesday's meeting will present Police Chief August Kettmann, whose topic will be "Safety and Crime Prevention."

On the Trails

Holiday spirit was running high as forty small merry-makers visited the Desert Inn Stables under the supervision of Miss Elizabeth Elliot, lovely Children's hostess of the Tahquitz Vista and El Encanto hotels. Ranging from age three to ten, they rode pony carts, ponies, and burros, with the more venturesome taking to the trails under the watchful eye of Marvin Martin. The Donkey Merry-go-round was a favorite with the smaller children. Ed Davenport, who operates it, was the originator of the idea. As he ground cane in Virginia, with a one-horse mill, while making sorghum molasses, children often looked on hopeful of a ride-around. This gave him the idea of using more than one horse or burro to accommodate more children. He uses one tiny pony as the leader. The burros obligingly follow.

Desert Riders Christmas week breakfast also brought out young holiday trail guests. Among them, Judy Lamb, Tommie and Bill Kornell, Roberta Pennington and Nelson and Sarah Ann Smelker. The latter two are from Beaumont, Texas.

Cute Adel Woods, a senior at UCLA excitedly telling of her planned trip to Hawaii, a graduation present to be from her father, Dr. E. K. Woods. The freedom of our desert trails is marred by only one common control of these certain sensitive areas by men and women who subscribe to economic and social theories foreign to the concept of the rights of the individual being above the rights of the state.

Supervisors Ask Legislators for Court on Desert

County supervisors Tuesday requested the state legislature to pass a law requiring the governor to appoint a judge to the Indian Superior court within 10 days after the law establishing the judgeship goes into effect.

Last year the supervisors requested establishment of the judgeship in Indian, but did not specify what they wanted done about placing a man in the office.

The Desert Bar association suggested the appointment by the governor, pointing out that the law establishing the judgeship will go into effect about September 20, if the state legislature passes it during the session early this year. The association stated that the Coachella Valley did not want to wait for an election year (1954) to fill the judgeship.

Although the first term is filled by appointment, following terms must be filled by county-wide elections. Temporary judges have been presiding in the court at Indian.

plaint. This, the crossings of Ramon road and more important Highway 111 on Sunrise Way. Cars too often are not aware of the trails until too late, and the screeching brakes confuse both rider and horse. Others refuse to stop, though horses can be seen chafing at the bit to be across and homeward bound. Crosswalks such as used for pedestrians would certainly be a help, as all drivers are familiar with these important white lines. As these crossings are within the city limits, crosswalks would tend to rightfully slow down traffic in general.

Will some authoritative person please see the need of these. See you on the trails.

Our Gardens in the Desert

By VELOMA WALDRON

The holidays are over for a while (who said "Thank goodness"? and it is time to put away the decorations and take care of the gift plants which were perhaps among the gifts. If you received a potted poinsettia for Christmas, you should take off the gift wrapping from at least most of the pot, so that it can "breathe." This is true of all the wrapped plants. When the flowers have faded from the poinsettia, or before if you wish, it may be planted outside in a sheltered location preferably half sun and half shade.

Azaleas may also be set outside while still in bloom or after finishing the flower period, but these must be set in all shade. It is well to use peat moss in the planting to help hold moisture.

Roses, pyracantha, living Christmas trees, etc., should be set out as soon as possible to insure the best of growth. If you do not know how to plant them call the nursery from which they came, or this column for suggested methods of planting. Do not set African violets outside.

THE JANUARY and February season is about here, and that means the time to survey your garden carefully and plan what you would like to have growing and where you would like to have it. Do you want more shade or fruit trees? Or do you want more sun than you now have? Or more color and more ever-blooming material? If you have some plantings that you do not like, don't hesitate to take them out, move them or discard them entirely, for you will never really enjoy your garden until you can look at it and feel proud of the appearance or the arrangement, or both. If any time in the year is correct for this planning and changing, then it is the winter months when deciduous materials can be moved without harming them.

Any of the plants and trees which have lost their leaves by this time are the ones which are called deciduous. In moving such material it would be well to dig down carefully away from

where the outside roots would be and take the soil away being careful not to tear or cut the roots. Have the hole where the tree is to be moved as nearly ready as can be estimated and after it is dug and some of the soil cleaned from the roots, try the tree in the new hole for size. Twisted or knotted roots may be clipped carefully (not torn off) and set in the new location being careful not to crowd or cramp. If the hole you first prepared does not fit, enlarge it or deepen it so that it does. Now fill in loose soil and water enough to work out the air pockets, using the handle to tamp and firm the soil. Cut back and thin out the upper branches and shape the tree or shrub so that it will have a good shape when it leafs out in the Spring. If the deciduous plant should be a shrub like a quince, crepe myrtle, or pomegranate and it is more tall and "leggy" than you wish, it can now be cut back quite severely. It will reshape itself and have more balance with the new growth in the Spring.

ROSES can be moved in much this same manner if you wish to change their location during the winter months. It does not harm them to expose their roots for a short interval of transplanting, so long as they are not allowed to dry. The important part of these

John Faunce Named Tennis Pro at El Mirador Hotel

El Mirador hotel announced this week that John Faunce, noted netter, will assume pro duties at the hotel. As an introduction, Faunce will host an invitational cocktail party at the Tennis clubhouse at El Mirador tomorrow, Friday, for his many friends in the tennis set. This will also serve as the official El

Mirador court opening. The courts are available to the public. Faunce, a native of Cambridge, Massachusetts, has an extensive and successful record in the world of tennis.

A self-developed athlete, a product of Santa Monica, California Junior College, he began his pro career in 1939. Only two

years later, he beat the famed Don Budge. This was in 1941 when Faunce was seeded fourth pro single in America. After time out for naval service where he was a highly regarded athletic specialist, Faunce again hit the tournament trail. In 1945-6-7 he signed doubles matches with Bobby Riggs, Don Budge, and Wayne Sabin, and in 1946 he won the hard court championship of the world.

In 1950 he toured South Amer-

ica with Pancho Segura and also, in 1950, was featured in a European tour with Fred Perry.

Faunce has coached at many famous resorts and has tutored many celebrities. Among his racquet pupils are Ginger Rogers, Jane Wyman, Greg Bautzer, Pat De Cicco and Anita Louise. In 1950 he instructed famed Nancy Chaffee on several fine points of the art of tennis.

Vic Braden will assist Faunce at El Mirador hotel.

Husband Accused After an Exciting Evening for Police

Palm Springs police, accustomed to almost any situation which might arise in a resort community, did a double-take on the report which came in at 10:09 p. m., Sunday, from a local cafe telling that a "nude woman had come into the restaurant stating that her husband had beat her."

Officer Eugene Holmes answered the call, and upon his arrival at the cafe found the husband, just driving away from the curb, and seated beside him was his wife, who was described as "completely nude."

HOLMES ORDERED him to park the car, and then questioned him about his wife's condition and why she was nude. The man replied, Holmes said, that he "had beaten her up and taken her clothes off because she had lied to him."

The wife then said that her husband had beat her and had cut off her clothes while they had been parked in the car on the desert near Palm Desert.

He had then driven her to the cafe, and "made her go in," she said.

HOLMES, ON SEARCHING the car, found clothes which showed definite marks of having been cut by a sharp instrument, and on the front floor of the car were two butcher knives, a large meat cleaver, a knife sharpener and a skewer. The husband, who has been in the Village two weeks, is a butcher by trade.

He was arrested by Holmes on a charge of wife beating.

Carnation Corner

Once, ice cream was vanilla ice cream, and that was that! Today, you can enjoy so many ice cream flavors...such as Carnation Chocolate Marshmallow Nut Ice Cream...a delicious ice-cream-and-sundae in one!

This wonderful new Treat-of-the-Month is pasteurized, homogenized Carnation Chocolate Ice Cream blended with smooth marshmallows and plenty of toasted nut meats.

Non-Skid Shoes!
"See my new shoes!" is a proud boast for small fry. Save them from "new shoe" falls by sandpapering soles lightly. Works on your new shoes too!

CARNATION PARTY CHARLOTTE
Simple to make, yet looks and tastes "extra special" because Carnation Chocolate Marshmallow Nut Ice Cream is so rich in "goodies"!

- (Makes 4 to 6 servings)
- 1 8-inch sponge cake or 24 lady fingers
- 1 pint Carnation Chocolate Marshmallow Nut Ice Cream
- 1/2 cup Carnation Whipping Cream

Line inside of refrigerator tray or individual serving dishes with thinly sliced sponge cake or lady fingers. Spread Carnation Ice Cream over cake. Then cover and freeze. Just before serving, garnish with Carnation whipped cream.

Remember Eugene Field's poem about the Sugar Plum Tree? Maybe he got his idea from the Marshmallow Bush! It's a tall plant of the hollyhook family that grows in swamps near the sea. The first marshmallows were made of syrup and gelatin from this bush. Nowadays, other ingredients are used—but the name marshmallow is here to stay!

HOW TO KEEP ICE CREAM
Try to keep ice cream at an even temperature. Buying more than you need at once is fine if you have a deep-freeze or separate freezing compartment...but if you do not, buy just what you need for a meal. Changing from low to higher temperature will give even super-smooth Carnation Ice Cream a grainy texture.

PARTY TARTLETS

Who doesn't get a thrill out of having the family say "You're wonderful!" That's what my folks say when I make tartlets by pressing pastry dough in muffin tins. Just before serving I fill them with Carnation Chocolate Marshmallow Nut Ice Cream. Simple too—with one of the pie crust readymixes we can buy now!

Save \$5 on Cleaning Bills!
Cut the sleeves off your husband's old jacket a little above the elbow and sew an elastic in the tops. He can keep them in the glove compartment of the family car, slip them on to do tire changes, emergency repairs.

Carnation's Treat-of-the-Month—and all the delicious Carnation Ice Creams are smooth, pure, economical—good to eat and good for you!

From Page One—MORE ABOUT

WINTER RESIDENT

he and his wife went to Jamaica on advice of doctors where they spent 15 years, returning to the United States at the start of World War II.

Mr. and Mrs. Gallois then started spending their Winters in Palm Springs, staying at the Ingleside Inn. In their own words, after several years, they "fell in love with the desert" and decided to become permanent Villagers, purchasing the Jack Warner home at 1985 Camino del Monte which is perched on the mountainside and commands an impressive view of the surrounding countryside.

SINCE THEN they have di-

vided their Winters between here and San Francisco, and in 1947 started spending six to seven months of each year in the European countries of France, Italy, Austria and Germany, and in Morocco.

But what induced him to come out of semi-retirement at the age of 68 (he still maintains large stock holdings in several California companies although not serving in any official capacity) to join with financiers of San Francisco in heading this extensive project in North Africa?

Gallois explained it very simply.

"The only way to stop communism is to feed people. Morocco can be developed into a second Southern California with irrigation, and has the greatest future of any country in the European area.

"That's why I am putting all my energy into this project."

THIS PROJECT proposed by French technicians and American financiers, Gallois said, "could help in rendering Europe independent of the Soviets and their satellites in the production of wheat."

"It should have been well on its way and partly completed by now, were it not for disagreements between France and its Moroccan protectorate. These disagreements now are of such importance to the future of peace in Europe that their outcome may seal a future course of our European relations."

POINTING OUT that the Arab statesmen's demand of immediate independence in the United Nations was met by the French with a boycott of the NATO discussions, Gallois said that it is now "the task of the other nations, especially the United States, to work out some formula to avoid the break between Paris and Rabat."

"The interests not only of France and Morocco, but the entire Western world may depend upon what happens in the Arab world," Gallois said. "We must hope that instead of a weakening link in Western defenses that a source of additional strength to the free world will ensue (in Morocco)."

"A UNITED STRENGTH is our only hope to make this a decent world to live in. It must be remembered, however, that France over these many years, as also prior to World War II, has invested many billions in the development of its protectorate, however it does seem expedient that American 'know-how' should come in with their specialized knowledge in irrigation and hydraulic development as well as with their financial help, to help build up a food supply and improve the standard of living in undeveloped areas."

"To my mind," Gallois stated, "the greatest problem that General Eisenhower will have to face after his inauguration is to weld us again to France, England and our other Allies. Thank the Lord that we have been fortunate in electing one who knows and understands Europe as Eisenhower does and I am sure he will succeed in keeping us united."

THE CALIFORNIA financier did not exude optimism about the present situation in the United States or in Europe.

"I'm scared to death that we're all becoming complacent because of the change in administration," he said.

"The political situation in France at the present time is of the utmost importance. The Pinay government has been voted out of office. At the present time France has no great leader, nor has it one in view. Therefore, out of the terrific sufferings of her people from the re-

sults of her last two wars, it is only natural that with a coalition government they are in a most apprehensive mood."

HE EXPLAINED that our economy is greatly affected by what happens in Europe.

"In many corporations in this country, foreign income from a subsidiary company has become greater than that realized by the American plant."

"With German and Japanese competition growing by leaps and bounds, France, Italy and England are becoming greatly disturbed. Should the present plans of a European coalition such as the Schuman plan fail to be a reality (which as things appear today, is a great possibility) the economic situation in Europe would become very shaky."

"If our European markets are curtailed to any major extent this country cannot help but suffer as many of our industries are geared up to a heavy European consumption. With this curtailment, it is easy to understand what a serious effect it would have on our United States economy and what a vicious circle could occur by causing many of our factories to shut down by the lack of these foreign markets."

REGARDING THE PRESENT governmental policy toward Europe, Gallois said, "As I see it and as Kingsbury Smith, European correspondent of International News Service, said over the radio a few days ago upon his arrival in New York, 'The future American policy is whether the American people want the McCarran Act or Point 4 to be their future attitude toward Europe?'"

"I quite agree that the time has come to put Santa Claus out of business in Europe. It is

quite true that we have 'dished' out 87 billion dollars since the last war. We got back 11 billion leaving a net (loss) of over six billion each year for the last 12 years.

"NATURALLY WE CANNOT continue to bear this burden. However, we shall have to continue assistance which, however, must be put on a businesslike basis. Instead of a giveaway basis."

This can be accomplished in the following way, Gallois said, "American investors will have to make capital investments but they must also have a voice in

the management. They should also receive some sort of protection against such risks as nationalization, foreign upheaval and confiscation."

"The world needs industrialization reform, and not agrarian reform. Were we to distribute all the land equally to peasants, there would not be enough to go around."

"The only way to fight communism is to raise the standard of living and the only way to do that is by industrialization. We must let private capital take over the job of keeping foreign economies going. This, however, must be done by business meth-

"SUCH A POLICY would be the best for all concerned," the financier said, "and let us hope it will be the new administration's first item on the agenda."

Gallois pointed out that at the present time only three-tenths of the American national income is being invested abroad, and invest abroad.

Palm Desert Sunbeams

By EDITH EDDY WARD

Parties, parties, parties—it seems like there was nothing but, this last week and the one to top them all was the cocktail party put on by Millie Mitchell and the Al Petersons in their lovely home last Saturday afternoon and evening. Guests began arriving at 3 p. m. and by 6 o'clock the house was jam-packed and overflowing into the patio. Usually people come and go to a party like this, but in this case everyone was having so much fun, nobody left until the end. Johnny Boyle and his guitar kept the crowd entertained with his cowboy and Hawaiian music and a special treat was the Tahitian dance done as only Otto and Audrey Allgoewer can do it. Shadow Mountain club catered the party under the capable supervision of Maynard Strahl.

It seemed like all of Palm Desert was there—in fact about the only non-residents we could find were Millie's house guests, Mr. and Mrs. Fred Leighton and Genevieve Rosasco from Sonora, California, and Kathleen Mitchell's friend, Mrs. Irene Norris with her bridegroom of two days from Stockton. Some of the familiar faces were the Tom Browns, Herb and Kitty Pritzlaff; Mr. and Mrs. Ray Rodney Jones, the Carl Hendersons, Dick and Marjorie Bailey, Verne and Lorraine Peck, the Earle Hupps, Cliff Henderson, Pete and Dorothy Pierson, Hal and Peggy Davis, the Harrison Fishers, Mr. and Mrs. Wilbur Bear, the Joe Kirks, Dr. and Mrs. John Robertson Macartney, Mary McHugh, Arthur and Myrtle Shepard, Rudd and Evelyn Hackborn and the Glenn Guleys. New Palm Desert residents getting acquainted with their neighbors at the party were Mr. and Mrs. Joseph Moon, the Dick Hanouseks, Mr. and Mrs. Ottar Roen, Jack and Alice Smith and Mrs. Edward Reichert, Mr. and Mrs. Arthur Heim.

Palm Desert Little Theater is now casting their next play which will be "Personal Appearance." The Palm Desert Players own their own little theater to which they are constantly adding new comforts. These neighbors and friends, under the capable and enthusiastic leadership of Clay Stearns, took over an old cabinet shop, thoroughly renovated and remodeled it, built a commodious stage and dressing rooms, installed a heating system and added comfortable seats. They have organized themselves into a stock company, but it is purely a community affair. Local people with a flair for dramatics form the casts—so many of them that some plays have used two complete casts with an alternate for every part. Other local folks manage the back-stage departments. They make their own scenery and props, design their own stage sets, rustle the furniture and other props from each other's homes.

CABARET STAR—Comedienne Irene Ryan, who is billed on the new show opening at the Chi Chi tomorrow night, has been tagged the "female sad sack" because of her mannerisms and the pathetic torch songs she sings. She isn't sultry and she isn't sophisticated, but audiences love her.

HERE you see pictured the Golden Anniversary ROADMASTER—engineered, styled, powered and bodied to be fully worthy of its paragon role in this fiftieth year of Buick building.

A quick listing of simple facts will reveal just cause for celebration.

- ★ It has the world's newest V8 engine. Vertical valves; 12-volt electrical system; 180 pounds lighter; entire engine is so compact, a new, more maneuverable chassis has been built around it.
- ★ It has 188 Fireball horsepower. A new Buick record; engine horsepower per pound increased 40%.
- ★ It has a compression ratio of 8.5 to 1. Highest compression on the American scene today; bettered fuel economy.
- ★ It has a dynamic-flow muffler. For the first time in automotive history, a muffler with zero power loss.
- ★ It has a new Twin-Turbine Dynaflo Drive. Now adds far swifter, quieter, more efficient getaway to infinite smoothness at all speed ranges.
- ★ It has new braking power. Most powerful braking action of any Buick in fifty years; plus the new ease of Power Brakes, optional at extra cost.
- ★ It has a still finer ride. The softest, steadiest, most buoyantly level ride that Buick's advanced engineering has yet produced.

It has, also, wondrous handling ease, with Power Steering as standard equipment. It has superb comfort. It has sumptuous fabrics and tailoring. And its acoustics are so thoroughly mastered that it may well be one of the world's most quiet cars.

But no listing of facts can do true justice to this phenomenal automobile, or to its brilliant brothers, the 1953 SUPERS and SPECIALS.

And no words can really tell you the beauty you see, the comfort you feel, the excitement you experience—when you look at and drive any one of these big, beautiful, bounteous Buicks for 1953.

Will you come in and see for yourself that these are, in simple truth, Buick's greatest cars in five brilliant decades?

Equipment, accessories, trim and models are subject to change without notice.

Economic Report

Cathedral City Chamber of Commerce is sponsoring a breakfast at which Stuart Parry Walsh, head of Industrial Survey associates, will discuss the Riverside County Economic Survey just completed on order of the board of supervisors. The breakfast will be held at Carols club, corner of Cathedral Canyon drive and Broadway, on Wednesday, January 21, at 8 a. m. The present and future economic development with recommendations as to how the Cathedral City area is and should be affected will be given. The survey, a 100 page book, gives many interesting statistics and reports on economic development, industry, wholesale and retail trade, agricultural production, visitors and resorts. The report may be obtained by writing Board of Trade, Riverside County Courthouse and enclosing \$1.50. Anyone interested is invited to attend the breakfast but reservations must be made by calling Robert Sherrill 8-3534 or this column 8-4691 not later than January 19.

Building Fund

Dr. Graham Hunter, pastor of Cathedral City Community church reports that to date \$500 of the \$1100 balance due on the lots adjoining the church has been contributed. It is hoped that in the near future a Sunday school building can be erected there. At last Sunday morning's service a beautiful violin solo was rendered by Prof. Y. Kolisch. Prof. Desti is a native of Zagreb, Yugoslavia, and was a finished violinist at an early age. He came to this country in his late teens and was a teacher of violin at Carnegie Hall. Mr. and Mrs. Desti expect to spend the season in Cathedral City.

Desert Art Center

Desert Art Center special exhibit of fine paintings will go on display starting next Sunday, January 11, at the new El Mirador hotel. One of the banquet rooms with a corridor leading to it has been designated for the showing. The paintings are to be changed from time to time throughout the season and will include the representative works of our desert painters.

William Darling, with the assistance of Wilton McCoy, Brownell McGraw and William Krehm, have worked industriously putting up the moldings, hooks and wires in order to hang the paintings to the best advantage from the viewers standpoint.

Bank of America Annual Report Shows Great Gain

stood at \$8,201,689,368, which is a gain of \$670,392,441 during the year. (Adding the subsidiary Bank of America-New York (International), the grand total of resources is \$8,300,231,823, which is \$682,971,719 higher than a year ago.)

BANK OF AMERICA deposits as of December 31, 1952, totalled \$7,485,116,183, a 12 months' gain of \$669,249,388.

Loans outstanding at the year end totalled \$4,069,150,471, an increase of \$436,465,122 over the previous year end.

Investments in securities aggregated \$2,413,852,775, which is \$682,971,719 higher than a year ago.

Total capital funds of the bank rose to \$424,302,143, of which \$11,916,287 was added from retained 1952 earnings. In addition to these capital funds, \$51,423,848 was held in the reserve for possible loan losses. Total increase for the year in this reserve and capital funds was \$16,721,752.

NET OPERATING earnings before taxes for Federal income taxes were \$103,316,287, as compared with \$96,794,581 for 1951. After provision for these taxes and transfer of \$10,000,000 to the reserve for possible loan losses, net profit remaining was \$50,316,287, equivalent to \$2.10 per share on the 24,000,000 shares outstanding. This compares with \$50,874,581, or \$2.12 per share for 1951.

President Carl F. Wentz observed that Federal income taxes were equal to \$1.79 per share, or 29 cents per share greater than in 1951. He stated that while high tax rates and increased operating costs had nullified the year's gains in gross earnings, he hoped that tax relief in 1953 would allow improvement to be shown next year.

SERMON ON SACRAMENT STRESSES SPIRITUALITY
Inspiring proofs of the healing power of spiritual thinking are included in the Sunday Lesson-Sermon on "Sacrament" in all Christian Science churches. This verse from I Corinthians (10:16) is the Golden Text: "The cup of blessing which we bless, is it not the communion of the blood of Christ? The bread which we break, is it not the communion of the body of Christ?" Luke's Gospel (22:50-51) relates that when Jesus was betrayed in the Garden of Gethsemane, one of the followers "smote the servant of the high priest, and cut off his right ear. And Jesus answered and said, Suffer ye thus far. And he touched his ear, and healed him."

In "Science and Health with Key to the Scriptures" Mary Baker Eddy writes, "We cannot choose for ourselves, but must work out our salvation in the way Jesus taught." "First in the list of Christian duties, he taught his followers the healing power of Truth and Love." "His spirituality separated him from sensuousness, and caused the selfish materialist to hate him; but it was this spirituality which enabled Jesus to heal the sick, cast out evil, and raise the dead." (pp. 30, 31, 51)

William Blondon, rector. "In the Epistle to the Colossians, St. Paul puts forth some of the clearest answers to the question, 'Who is this Jesus?' The lessons of the church during January will be stressing the importance of the Nativity which is celebrated during December."
